

Lead. Innovate. Excel.
Deloitte's 2010
Technology Fast 500™

About Deloitte's Technology Fast 500™

The Deloitte Technology Fast 500 is the pre-eminent technology awards program in North America with 2010 being its sixteenth anniversary. Combining technological innovation, entrepreneurship and rapid growth, Fast 500 companies – large, small, public, and private – span a variety of industry sectors, and are leaders in hardware, software, telecom, semiconductors, life sciences and emerging areas, such as clean technology. These companies are on the cutting edge and are transforming the way we do business today.

Selection and Qualifying Criteria

Technology Fast 500 provides a ranking of the fastest growing technology, media, telecommunications, life sciences and clean technology companies – both public and private - in North America (U.S. and Canada). Technology Fast 500 award winners for 2010 are selected based on percentage fiscal year revenue growth from 2005 to 2009.

In order to be eligible for Technology Fast 500 recognition, companies must own proprietary intellectual property or technology that is sold to customers in products that contribute to a majority of the company's operating revenues. Companies must have base-year operating revenues of at least \$50,000 USD or CD, and current-year operating revenues of at least \$5 million USD or CD. Additionally, companies must be in business for a minimum of five years, and be headquartered within North America.

This ranking is compiled from nominations submitted directly to the Technology Fast 500 Web site, and public company database research conducted by Deloitte LLP.

Program Information
